The following paragraphs highlight the actions we are required or expected to take.

2. We are required to submit to the State Department for review and clearance before a contract or grant is awarded all external foreign affairs research contracts, whether classified or unclassified, that

a. at any stage involve foreign travel or contact with foreign nationals in the United States or abroad, or

b. that, in our judgment, may have potential adverse effects on U.S. foreign relations because they deal with subjects under active negotiation or currently in dispute.

3. We are required to report to the State Department all external foreign affairs research projects, classified or unclassified, even if submitted for prior clearance, within ten working days after the awarding of a contract or grant ("or as soon thereafter as possible").
